- 2. I have reviewed and understand the entire contents of U.S. Reissue Patent Application 10/621,105, which was filed 10 July 2003.
- 3. I have reviewed and understand the contents of the Preliminary Amendment filed with this Supplemental Reissue Declaration. I am the first and original inventor of the subject matter recited in the amended claims presented in the Preliminary Amendment, including new Claims 16 through 18.

Reissue Application Number 10/621,105 Reexamination Control Number 90/006,089

- I believe the original patent to be partly inoperative or invalid by reason of patentee claiming more than patentee had a right to claim in the patent.
- 6. To adequately distinguish the claimed invention from the prior art, original Claim 3 of U.S. Patent 6,258,082 should be limited to a method that includes "removing sclera tissue from outside the corneal limbus area, said removing comprising forming a pattern of radial lines in the sclera to a depth of 500– 600 microns".
- All errors which are being corrected in this reissue application arose without any deceptive intention on my part.
